

Dr. Mr. Parks,

We like your politics and Right On Daily. You do a outstanding job. We wanted to point out that our local assemblyman Keven Kiley is not taking a strong stance on ILLEGAL immigration. The Democrats recently passed HR 4

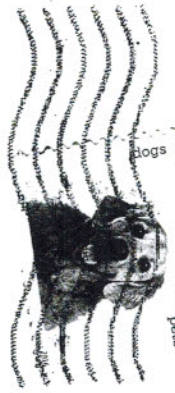

Travis Allen of Long Beach spoke out against it:

“To everyone watching this today, make no mistake – this resolution was written in the darkness of night with the intention of making a national statement on your behalf without any process, conversation, or transparency. HR 4 is a politically self-serving attempt to cynically stoke fear and anxiety among Californians and the immigrant community – both legal and undocumented – living in California population – which is, in fact, the opposite of what its authors and supporters say they intend.”

However Kiley was silent. No speech, and not a word about the resolution or immigrants? Nothing on facebook, although he wroted about the new cell phone bill? Has anyone even asked him about the so-called dreamers? This alarmed us after we saw an interview Kiley did on KCRA 3 with Edie Lambert. She asked him about illegal immigrants and what to do with them. He answered that He wanted to Make California great place for everyone to live. When she pressed him a bit, he gave the SAME EXACT answer.

Mr. Parks we hope you will put a notice on Right on Daily and keep Kiley on alert his votes and politics are being watched by Trump allies of California! (TAC)

We are not surrender.
