Theresa and Joe,
I had our Technology Services do a comprehensive search of our email system along the parameters of the PRA that you submitted this includes the Trustees District email accounts, I also asked Trustees to check any communications that may have been made on any non-district email accounts within the PRA request you made. The District provided all of the information that we could find to comply with the PRA request as submitted.

The District has turned over all of the email communication as requested in your PRA and in the email above. If there is something more specific please amend your request and we will fully comply. The goal of the District is to fully comply with the law related to PRA in this matter and all matters.

Sincerely,
Roger Stock

Thank You Roger. I was able to pick up the packet today, but had some concerns. I know of at least a few e-mails that were not included in the packet, but were clearly in the range and should have been included. I'm concerned that something may be wrong with the process to identify all of the communication. Can you please confirm and send me all of the e-mail communication that was requested, essentially any e-mails sent to or from any of the board members regarding the vacant board position?

Thank you,
Theresa
